

STATEMENT OF PURPOSE

Introduction

I, Mr., son of Mr.and Mrs., a permanent resident of, was born on I am writing this statement of purpose to express my true intention for studying Bachelors of Nursing, reason for choosing Holmesglen Institute and my future plan. I consider myself lucky enough to have very supportive parents and they will be supporting me financially throughout my study period in Australia.

Academic History

I did my secondary level of schooling from a well-known community school named and got my School Leaving Certificate (SLC) in 2015 with Grade Point Average (GPA) of 3.6. Thereafter, I got enrolled in +2 science from one of the best college in Nepal; I completed my high school in 2018 with average GPA of 3.13. Apart from academics, I am equally interested in extracurricular activities and different volunteering program. I was one of the notable students during my schooling and I always able to maintain my GPA above 3.0. Similarly, I was laborious, hardworking and very disciplined students and always submit my assignment before the deadline. With the recommendation and advice from my teachers, relative and review from friends who are studying in Australia, I decided to pursue my higher education in Australia and therefore I have taken PTE – Academic test on 25 September 2018 where I scored overall 75.

STATEMENT OF PURPOSE

Reason for not choosing Nepal

Nepal is the least developing country. Its quality of education in comparison to Australia is not gratifying at all. Regarding this, Australia has been the best choice for attaining a higher level of degree from an internationally exposed college or university. Although, Tribhuvan University (TU) of Nepal is internationally renowned, in terms of the facilities, the teaching strategy, studying and working environment, career outcomes, and field placements, but due to student election and conflicts in rector appointment course will not complete within time frame. Moreover, seat reservation system, entrance examination and admission one a year make it more complicated to secure admission in Tribhuvan University. Nevertheless, teaching methodology in Nepal is more theoretical approach and lack of latest technology in laboratory where student has no access to modern equipment. On the contrary, in Australia, exposure to a distinct society will help me experience a cross-cultural environment. I would also get an opportunity to learn a new culture, their customs, history, and conviction. It will give me a platform to actualize the power of a single unit and their impact on hundreds. Hence, the professional outcomes acquired from Holmesglen Institute will undeniably improve my social learning and make me a better person.

Reasons for choosing Australia

Australia is one of the most popular destination for international students these days as it provides quality education and globally accepted degrees in affordable prices. It has more than 1100 institutions among which many have secured place as top universities worldwide. Australia has always maintained its reputation for providing best practical nursing education. Australia is preferable in compared to other foreign countries like USA, Germany, Canada, Norway and so on. Australia's climate is similar to my home country while climate in Canada is too cold compared to my homeland which will make it difficult for me to adjust there. Similarly, Tuition fees in USA are too high compared to Australia and the high crime rate there makes international students unsafe. Also, In Germany or other European nations we may face language barrier or culture shock. Talking about reasons for not choosing Nepal, education here is more theoretical and less practical. In a nursing course, we are exposed least to clinical environment and more to knowledge within the books. This ultimately reduces the quality of education we receive

STATEMENT OF PURPOSE

and cannot prepare ourselves for international medical exposure. In contrast, Australia is suitable in every aspect including language, culture, quality of education, tuition fees, security and climatic conditions which ultimately makes Australia the best country for me to pursue my further study. Similarly, the course design and curriculum of Australian universities are according to the global demands and standards which can guide me to pursue my career of being a skillful nurse. Australia also allows international student to work for limited time of forty hours fortnight which will aid the student financially for their petty expenditures like travel and also gain work experience simultaneously. Australia is also home for students over 140 countries; this multicultural environment helps me in learning different cultures and making friends all over the world. Australia is also regulating different rules to provide quality education to international students. For instance, CRICOS Code (Commonwealth Register of Institutions and Courses for Overseas Students) lists all universities and colleges registered to meet the requirements set out in the National Code of Practice to provide quality education to international students. Due to all these reasons, I strongly believe that Australia is the best fit for my educational destination.

Reason for Melbourne

Melbourne, Victoria's vibrant capital is truly one of the world's greatest cities. When it comes to finding a city in which to study, it doesn't get much better than Melbourne. It seems the world agrees too, with Melbourne recently being named Australia's best city for international students, and the second best city in the world ahead of Tokyo, Sydney and London. The only city to top Melbourne in the study stakes was Paris. Also, Melbourne is world's number one liveable city for the last six consecutive years. Melbourne has number of reputed education provider providing a world class education to the students. The city has lots of reputed colleges and universities. Education credentials are recognized by international institutions and employers. It also provides top class facilities and academics. It has portability of qualifications. It is a leading international student city and top Asian Pacific education provider. It consists of diverse range of cultural and sporting activities and also student support services. The safe and peaceful environment of Melbourne is the main thing that will help me to foster my education.

STATEMENT OF PURPOSE

Reasons for choosing Holmesglen Institute

For this journey, I did an intensive research to find the suitable education provider. With my research, I found some education provider namely Australian Catholic University- \$AU 28,000 per year, Charles Sturt University- \$AU 27,500 per year, University of Newcastle- \$AU 32,000 per year, and Victoria University-\$AU 28,400 per year and Southern Cross University- \$AU 27,500 per year. After doing this research, I came to know that the fee structure of the mentioned education provider fee is comparatively higher than that of Holmesglen Institute as annual fee at Holmesglen is only AU\$ 26,500. Similarly, some universities such as Victoria University and Charles Sturt University has higher admission requirement which did not match my academic credentials. So, finally looking after mainly the fee structure plus the appropriate location, I decided to study Bachelor of Nursing at Holmesglen Institute.

Moreover, Holmesglen is one of the largest providers of vocational and higher education in Victoria. It was established in 1992 and ever since then it has been providing 90 programs to over 7000 students at the initial phase to more than 600 courses to more than 50,000 students, both national and international. Holmesglen delivers internationally and nationally across four major campuses: Chadstone, City, Moorabbin and Waverley. Bachelor of Nursing at Holmesglen is accredited by ANMAC and I can be Register Nurse after graduation. My yearly fee is also affordable as compared to other institutes in Australia. Furthermore, class size, individual attention to the students, support for exams and assignment completion, participatory inquiry based practice fascinated me as an international student. Professors of this Institute are highly skilled and motivating. The management system, method, the environment along with the facilities provided by the Institute suit my ambition. Apart from all these facts, Holmesglen has modern facilities across campuses and benefits from global reputation in creating the world-class career opportunities. Moreover, Holmesglen is located in a beautiful place; **The Chadstone campus is located on the corner of Warrigal Road and Batesford Rd in Chadstone, a short drive from the Warrigal Road exit of the Monash Freeway.** The Chadstone is home to around 10,000 students per year. Its offer broad range of courses offered at the campus, the modern, attractive and extensive teaching facilities, and its proximity to an abundance of restaurants, cafes, bars and Chadstone shopping Centre.

STATEMENT OF PURPOSE

Reasons for choosing Bachelor of Nursing

After I completed my high school, I wanted to join a course; in which there is a humanitarian environment where I could provide compassionate care to people, empower them and support them to prevent illness by cure the illness by being well knowledge about how health system works. On my enquiry I came to know Nursing would be able to provide me the platform to help people in the most vulnerable conditions. This ultimately guided me to decide nursing as my desired course for bachelor. I learned about biology, chemistry and what makes a human or any other living beings. However, I realize that getting into Nursing course will help me to understand human essence which is not limited to biology or chemistry but incorporates the physical , mental , emotional and spiritual being and this understanding and knowledge will help me to serve humans in holistic manner and bachelor of nursing is that choice which will help me in developing the adequate knowledge and skill from base in a through way. I can also learn how to communicate effectively with patients and other staff, administer and monitor medications, handle complex care, manage the care of wounds and prepare health assessments and care plans. We can be benefited from on-the-job clinical placements in which a chance to work as part of a team and under the supervision of doctors and surgeon is provided. This course is designed to help students to progressively develop their skills, attitudes and knowledge for practice as Registered Nurse. Students will be facilitated and guided in their progress through presentation of evidence-based academic content, clinical and laboratory simulations, and participation in clinical placements. This is the fundamental reason of choosing this course besides that bachelor of Nursing and further into this medical profession I am delighted to go further. Additionally, nursing had numerous scopes for me to choose from going through base concepts will help me to explore the area of my interest further and will help in making accurate decisions as well. Furthermore, nursing is not only my passion, but also that its graduates are highly demanded in both my native land and international market.

This is one another reason that I choose to develop and advance my career in this field. In this course we are required to successfully complete 24 units of competency and a minimum 825 hours clinical practice to complete this qualification. Some of the major studies for Bachelor of Nursing in Holmesglen Institute are Acute care nursing, aged care, communication, community nursing, comprehensive acute and chronic nursing care, ethics and law, health and wellbeing , human biology, indigenous health, mental health nursing, pediatric nursing, palliative care, pharmacology, rehabilitation therapies, research and evidence-based practice, society and culture etc.

STATEMENT OF PURPOSE

Future plan and motivation to return back Nepal

After I complete my nursing study in Australia, I intend to return back to serve needy people of my country. Since I was a child, I have been listening in the news that people are dying of common preventable diseases like diarrhea and dysentery due to lack of awareness. As a responsible citizen, I can connect with various national and international governmental organization and reach out to public and spread the knowledge about prevention and cure of these diseases and promote health. With a globally accepted degree in my hand, I can easily get a job as nursing in-charge in some of the reputed hospitals in my country like, Tribhuvan University Teaching Hospital (TUTH), Bir Hospital, Norvic International Hospital etc. with very good salary package. At the initial phase, candidate like me with Australian degree and experience, can expect monthly salary of NPR 70,000 to NPR 80,000 with a lots of facilities such as housing, insurance, provident fund, transportation and so on. Working in health care sector has high social respect in our country. Following my passion and serving my nation yet getting lucrative job opportunity is the most prominent career that could have in my life. Furthermore, I am the only son of my family and according to my culture, I am supposed to take care of them in old age. My have infinite responsibilities to take care of my parents and their assets as it will inherit to me. As a faithful son and citizen, I will return back to my country after my nursing study to fulfill my career goals and responsibilities towards my parents.

STATEMENT OF PURPOSE

Visa Conditions

Being an international student, I have understood all the rules and visa conditions that are applied to an international student holding an Australian Student visa (Subclass 500) along with the policies. Few of the visa conditions are mentioned below:

- I must have OSHC/health throughout my study program.
- I cannot change my university for six months upon enrollment.
- I must maintain at least 80% attendance.
- I must inform DHA within 7 days if any changes in my address/contact details to my university.
- International student allowed to work 20 hours per week.

I hereby declare that this piece of writing is my copyright and all the information here is true. I look forward to hearing positive response from you.

Sincerely yours

.....
